

Nucleus Colony (Nuc) Orders for Spring 2021

Nucs will be either **5 deep frames** or **8 medium frames** of bees, honey, and pollen with a laying queen. Nucs are reserved on a first come first served basis. While I would like to set an exact date for picking up nucs, so many factors out of my control will make dating availability impossible. I hope to begin having nucs ready for pickup by the middle of March. All nucs will be picked up at 744 Tinker Creek Road, Williston, SC 29853.

Nucs can be picked up in your equipment which requires a bottom, top, the deep or medium box that is for the size you want and an entrance closure. Please bring a ratchet strap to hold all of that together while you are transporting your bees to your location. You will also need enough extra frames to hold space for the size box you have i.e. if your equipment is 10 frame deep you will need to bring 5 extra frames to hold the rest of the space in the box. **8 frame medium nucs can only be picked up in your equipment!** 5Frame deeps can also be picked up in a corrugated plastic nuc box or in a painted wooden nuc box either of which you can reuse.

Pricing for nucs:

___ Deep Frame Nucs picked up in your equipment @\$155.00ea.	Total \$ _____
___ Deep Frame Nucs picked up in plastic nuc box @\$160.00ea.	Total \$ _____
___ Deep Frame Nucs picked up in painted wooden nuc box @ \$180.00ea.	Total \$ _____

Website orders can be made at www.johnsonsbeesandsupplies.com. All nuc sales require payment in full for reservation. A full refund of the purchase price is available if nuc order is cancelled.

cash or check made out to *Johnson's Bees and Supplies* only \$ _____

I understand that date of nuc availability cannot be determined precisely. I understand that if I am unable to get the next available nuc that Allen will move to the next customer in line but will work me back in as soon as possible. All nucs will be picked up at 744 Tinker Creek Road, Williston, SC 29853.
